## Looking ahead to 2024

It has been an honor to serve you over the past year, leading a wonderful group of ladies on the Council who strive to create opportunities for you to love Jesus and each other more each day. The Council will be having a Planning meeting in October for 2024, and I am excited about some tentative plans to expand our calendar to include some fellowship events on the weekends. We will also be bringing back the Seek Conference, in March this time, so our planning will begin very soon for that! Please be in prayer for us that God will direct our paths and that our planning will be to His glory, leading the ladies of East Brent closer to Him and each other - **Stephanie**
